PROFESSIONAL SUMMARY

Full Stack MERN Developer with over 2 years of software development experience building scalable, secure and data-driven web applications. Proficient in JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, Mongoose and MySQL. Experienced in RESTful API development, JWT Authentication, Role-Based Access Control (RBAC), Stripe Payment Gateway integration, CRUD operations, responsive UI development and production deployment using Vercel, Render and MongoDB Atlas.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

02/2024 – Present

Self-employed

- Delivered end-to-end MERN applications across 4 core technologies: React.js, Node.js, Express.js and MongoDB, with Mongoose for data modeling.
- Engineered RESTful APIs with 4 security controls: JWT authentication, Bcrypt credential hashing, route authorization and Role-Based Access Control (RBAC).
- Coordinated customer and admin workflows by integrating responsive React interfaces with CRUD operations, REST APIs and database-driven functionality.
- Deployed MERN applications across 3 production services—Vercel, Render and MongoDB Atlas—while owning MongoDB/Mongoose data modeling and production delivery.

Software Developer

10/2023 – 02/2024

DHI.AI Private Limited

- Analyzed and maintained JavaScript/MySQL applications, troubleshooting SQL queries, joins and schema issues while supporting testing and feature delivery.
- Partnered with developers to diagnose application defects, validate fixes through testing and improve reliability of existing web features.

Software Developer

08/2022 – 10/2023

Interra Information Technologies

- Owned backend development across 4 core technologies—JavaScript, Node.js, Express.js and MongoDB—for an Online Shopping platform.
- Created RESTful backend workflows for 3 key commerce areas: user authentication, cart persistence and catalog management, alongside database debugging and API optimization.

EDUCATION

Bachelor of Engineering (Information Technology)

2016 – 2020

Jadavpur University | CGPA: 6.57

TECHNICAL SKILLS

Programming

Frontend

JavaScript (ES6+), Asynchronous Programming

React.js, React Hooks, React Router DOM, Context API, HTML5, CSS3, Axios, Responsive Web Design

Backend

Node.js, Express.js, RESTful APIs, CRUD Operations, API Integration

Database

MongoDB, Mongoose, MongoDB Atlas, MySQL

Authentication & Security

JWT Authentication, Bcrypt, Role-Based Access Control (RBAC), Protected Routes

Payment & Uploads

Stripe API, Stripe Checkout, Multer

Developer Tools

Git, GitHub, Postman, VS Code, MongoDB Compass, MySQL Workbench

Deployment

Vercel, Render, MongoDB Atlas

CERTIFICATIONS

HTML Certification | JavaScript Certification | MySQL Certification | Node.js Certification

PROJECTS

FoodyGo – Full Stack MERN Food Delivery Web Application

Customer App: soulmik-foodygo.vercel.app | Admin Panel: food-delivery-soulmik7.vercel.app | GitHub: [food-delivery](#) | Backend API: [soulmik-food.onrender.com](#)

- Delivered 2 React applications - a customer storefront and an admin panel - backed by a shared Node.js/Express API.
- Secured 2 application roles - customer and admin - through JWT sessions, password encryption and role-specific access controls.
- Implemented 8 core food-delivery workflows: search, category filtering, persistent cart, image upload, checkout, order history, order management and status updates.
- Integrated Stripe Checkout with payment verification and released the solution across 3 deployment services: Vercel, Render and MongoDB Atlas.

Online Shopping Application

Technologies: JavaScript, Node.js, Express.js, MongoDB, RESTful APIs

Drove implementation of core e-commerce workflows including user registration, persistent shopping carts and product administration through modular REST APIs.
